

How secure is your Wi-Fi Connection?

Calling all eduroam Wi-Fi users, we want to help you protect your devices and data! You can secure your data in less than 5 minutes by updating your devices via cat.eduroam.org or by downloading the geteduroam app. This update will optimize your device security settings, protect your device from cyberattacks, and ensure seamless connectivity to eduroam whenever and wherever you connect. What are you waiting for? Secure your data and devices today!
